Jean Greenhowe : Making a Victorian Doll's House (Craft Paperbacks) before purchasing it in order to gage whether or not it would be worth my time, and all praised Making a Victorian Doll's House (Craft Paperbacks):

Jean Greenhowe shows how to construct your own dolls house with instructions and diagrams for making each floor and for adding suitable decor for the kitchen, parlour, master bedroom and nursery. Making the furnishings and fittings themselves is perhaps the most exciting and absorbing part, and to complete the scene there are instructions for creating a complete doll family. Other books by Jean Greenhowe include "Making Costume Dolls", "Making Miniature Toys and Dolls" and "Dolls in National and Folk Costume". Her work has appeared on television.
